GLOBE TREKKER

THIS MONTH’S LADY IS ALSO A WELL-TRAVELLED, INTELLIGENT BASE.

Name: Chin Li Yuen
Age: 28
Currently doing her Masters Degree in Science and Applied Science at Singapore Management University after a stint as a legal eagle with a law firm.
Aspires to have a meaningful career and be a good wife and mother at the same time.
“I wish to have an occupation that means more than just a job and an income,” Li Yuen shares. She also wants to be able to juggle career and domestic duties in the future.
“I want to be able to take care of the household, be there for the kids, and not let my husband worry about family matters.”
Passionate about her pet dogs and sports. This porcelain-skinned beauty adores her two 11-year-old Malteses, who take up quite a bit of her time. “One of them has diabetes, and I bring her to the vet twice a month and monitor her glucose level every day to make sure it’s under control,” Li Yuen signs. This sweet thing also takes an occasional dip in the pool and heads down to the tennis courts once a week. She’s now thinking of taking up Pilates.
Gets her kicks by travelling
“I like to experience the culture and to physically visit the places that I see in magazines,” she shares, having been to Greece, the Ukraine, London, Hong Kong, Taiwan, Thailand and Australia. Next stop? A tour across the United States’ eastern coast.
Hangs out at the Keppel Club for movies, she goes to Bojan Junction & or Great World City. And if it’s shopping, it’s off to Orchard Road.
Motto: “When the going gets tough, the tough gets going.”
Her idea of a New Man: “Someone streetwise, fun to be with and has compassion.”
