SINGAPORE: Tens of thousands of jigsaw pieces, making up a giant jigsaw, have been sold for charity.

Kidney dialysis patients will benefit from the S$85,000 collected from the sale.

The jigsaw, measuring more than seven metres long and three metres high, was unveiled at the Singapore Management University.

The Mayor of the Central Singapore District, Zainudin Nordin, attended as the Guest-of-Honour.

Donors bought a coupon for S$2 representing a piece of the jigsaw.

The Kidney Dialysis Foundation says each piece of the puzzle represents a wish from each of its patients to receive a new lease of life. - CNA/so
