SINGAPORE: A photo exhibition on migrant workers is being showcased at an unusual location.

On Tuesday evening, residents and Foreign Affairs Minister George Yeo were drawn to the void deck of Block 415, Hougang Avenue 10, where the exhibition is being held.

The visual display showcases the lives of the migrant worker population here.

The aim is to let the public have a glimpse into the lives of these workers, such as maids and construction employees.

The event is organised by arts society Migrant Voices and students from the Singapore Management University.
