To make up for its lack of technical education and highlight its quality in the education of its people. Education forms a cornerstone of Singapore's strategy to open a campus within a five-year window in 2015; and the Open University Degree Program in collaboration with the Open University of the United Kingdom.

Passion courts!\n
As one practitioner who would like to work in Singapore, Rashmi says: "There are great opportunities for people to work in Singapore, and especially for those who are passionate about education and want to make a difference in the lives of students. Singapore is a great place to work and live, with a diverse and vibrant culture."
