校园环保，共同努力，把绿色知识融入我们的日常生活中。
全球暖化对世界经济造成重大影响，环保已到了刻不容缓的地步。本地各院校师生纷纷推广对于环保，你是否尽了一分力？
今天地球日。

绿化环保从学校开始

SMU Verts 使环保cool了起来

新加坡管理大学的环保组织，SMU Verts，是由一群热爱环保及绿化校园的学生在2002年所创办的，目的在于鼓励学生实践3Rs(Reduce, Reuse, Recycle)。

在新大的图书馆外头，围绕着一层绿色“窗帘”，这特别的“窗帘”可是以植物制成的，在图书馆外围的墙壁为正在读书的学生们遮荫。SMU Verts在2008年5月份主办了一项为绿色墙壁命名比赛。

一名新大学生为此绿色墙壁命名为“SMU Arbourfront”。SMU Verts的主席王应纬（24岁）透露：“Arbour代表着藤架，与树木也有亲密的关连。既然SMU的绿色墙壁也位于大学的许多建筑物前方，为它命名为Arbourfront能够使它更加独特。就像本地把我们与大海及大自然连接的Harbourfront，新大的Arbourfront也给予大学成员一个能够和大自然接触的渠道。”

SMU Verts的其他活动包括了：新大环保日，讲座，展览等。

SMU Verts的主席王应纬（24岁）表示：“希望学校与家长能够为绿化环境的运动尽一分力，从小培养孩子们环保的习惯。此外，每所小学和中学也可以有环保组织，让孩子们学习绿化生活与环境。”

Going green starts from school

The environmental student group called SMU Verts was set up in 2002 comprising a group of students who believes in recycling and passionate about making the campus more green. They champion the 3Rs values of Reduce, Reuse, Recycle. Hanging outside the university's Li Ka Shing Library is a green wall made up of plants which help to shelter the building from the sun. SMU Verts organized a naming competition for this green wall in May 2008. A group of students decided to name this green wall SMU Arbourfront. Chairman of SMU Verts Wang Yingwei (24 years old) explained: "Arbour means a framework that supports climbing plants. It represents intimate connection between buildings and the plants. 'Front' depicts how the green walls form the frontage of the school buildings. Like Harbourfront where the sea meets the land, SMU Arbourfront is a picture of nature and modern concrete coming together." Other activities organized by SMU Verts include recycling day, talks and exhibitions. Chairman of SMU Verts Wang Yingwei added: "We hope that schools will work with parents to contribute to the green efforts. They can inculcate values in children from a young age. Primary and secondary schools can also form green clubs."
