

Valentine's Day message to love S-League football

Love was in the air as more than 100 S-League players formed a gigantic heart (left) yesterday to entice more fans to love Singapore's professional football competition on Valentine's Day.

They gathered at Singapore Management University's campus to spread the message ahead of the League's kick-off tomorrow.

Earlier in the afternoon, the S-League stars were at Orchard Road to interact with fans in a publicity blitz.

Players, such as (above picture, from left) Geylang United's Slovakian midfielder Ratislav Belicak, defender Baihakki Khaizan and goalkeeper Fajar Sarib, handed out heart-shaped balloons, pocket calendars and free match tickets to promote local football. And for this young woman, it was an opportunity to be snapped with three S-League hunks.
